

MODEL PAPER 207 — FULLY SOLVED

Data Entry Operator (2017)

In Police Department

Total Questions: 95 Multiple Choice Questions

Sections: Computer & IT Knowledge, General Knowledge, English Grammar, Analytical Reasoning

Format: Every question shown with correct answer ticked & highlighted, followed by a full explanation

Prepared for: FPSC / PPSC Exam Preparation

A complete, solved reference edition — original questions and options unchanged

Data Entry Operator (2017) — Model Paper 207 | Fully Solved

EVERY ANSWER VERIFIED & EXPLAINED

1 Which of the following expansion slot has highest speed?

- A ☐ PCI
- B ☐ APG
- C ☒ AGP
- D ☐ ISA

Answer C) AGP

Explanation AGP (Accelerated Graphics Port) was designed specifically for graphics cards and offers much higher speed than PCI or the older ISA slot.

Note: Option B appears as a printing typo of "AGP" in the source paper.

2 ____ can be used for marking a multiple choice test.

- A ☒ Optical mart reader
- B ☐ Bar code reader
- C ☐ Mouse
- D ☐ All of these

Answer A) Optical mart reader

Explanation An Optical Mark Reader (OMR) detects marked answers on test sheets, which is why it is used to grade multiple-choice tests.

Note: "Optical mart reader" is a printing typo for "Optical Mark Reader."

3 PCI is an expansion slot, it stands for:

- A ☐ Personal Computer Interconnection
- B ☒ Peripheral Component Interconnect
- C ☐ Principle Component Interconnect
- D ☐ Component Interconnect

Answer B) Peripheral Component Interconnect

Explanation PCI stands for Peripheral Component Interconnect, a standard bus for connecting hardware devices to a computer's motherboard.

4 In MS Word 2007, while viewing Print Preview of a document, how can you go to first page of document?

- A ☐ RAM
- B ☐ Modem
- C ☐ Processor
- D ☐ Hard disk

⚠ Question Error in Source Paper

Explanation The printed options (RAM, Modem, Processor, Hard disk) are hardware components and do not answer this software navigation question — they appear to have been duplicated by mistake from another question. In MS Word 2007's Print Preview, pressing Ctrl+Home takes you to the first page of the document.

Note: Question error in the source: none of the printed options is a valid answer.

5 Inventor of Computer Mouse was a/an ____ engineer?

- A ☒ American
- B ☐ British
- C ☐ Russian
- D ☐ German

Answer A) American

Explanation Douglas Engelbart, an American engineer, invented the computer mouse in the 1960s at the Stanford Research Institute.

6 ____ is a silicon chip which carries out set of instructions and processes the data efficiently and accurately.

- A ☐ RAM
- B ☐ Modem
- C ☒ Processor
- D ☐ Hard disk

Answer C) Processor

Explanation The Processor (CPU) is the silicon chip that executes instructions and processes data.

7 ____ is also known as mechanical agent.

- A ☐ Finger print reader
- B ☐ Barcode reader
- C ☒ Robot
- D ☐ Computer

Answer C) Robot

Explanation A robot is a programmable mechanical device that can sense and act on its environment, so it is also called a mechanical agent.

8 In MS Word 2007, which shortcut key is used to switch to Print Layout view?

- A ☐ ALT+SHIFT+P
- B ☐ ALT+CTRL+O
- C ☐ SHIFT+CTRL+O
- D ☒ ALT+CTRL+P

Answer D) ALT+CTRL+P

Explanation Ctrl+Alt+P switches the document view to Print Layout in Word 2007.

9 Individual dots, which make up a picture on the monitor screen, are called:

- A ☒ Pixels
- B ☐ Pixles
- C ☐ Coloured Spots
- D ☐ Colourless Spots

Answer A) Pixels

Explanation Pixels (picture elements) are the smallest individual dots that together form an image on a screen.

Note: Option B is a typo duplicate of "Pixels."

10 ____ is a collection of programme that supervises and control overall function of a computer.

- A ☒ Operating system
- B ☐ Device drivers
- C ☐ Utility programs
- D ☐ MS Office

Answer A) Operating system

Explanation The Operating System manages and supervises all hardware and software resources of a computer.

11 "Fax Viewer" is a(n):

- A ☐ Productivity software
- B ☒ Utility program
- C ☐ Business software
- D ☐ Educational software

Answer B) Utility program

Explanation Fax Viewer is a small helper application (utility program) used to view faxed documents on a computer.

12 ____ controls, co-ordinates and directs all the operations performed by the computer.

- A ☐ ALU (Arithmetic and Logic Unit)
- B ☒ CU (Control Unit)
- C ☐ AU (Arithmetic Unit)
- D ☐ LU (Logic Unit)

Answer B) CU (Control Unit)

Explanation The Control Unit (CU) directs and coordinates all operations of the processor and other components.

13 ____ is a grid of individual pixels that collectively compose an image.

- A ☐ Vector graphic
- B ☒ Raster graphic or bitmap
- C ☐ Color graphic
- D ☐ Negative films

Answer B) Raster graphic or bitmap

Explanation A raster graphic (bitmap) is made of a grid of pixels, unlike vector graphics which use mathematical paths.

14 In MS Word 2007, which shortcut key is used to replace text or specific formatting?

- A ☒ CTRL+H
- B ☐ CTRL+T
- C ☐ CTRL+I
- D ☐ CTRL+SHIFT+I

Answer A) CTRL+H

Explanation Ctrl+H opens the Find and Replace dialog box, used to replace text or formatting.

15 ____ is used to create visual presentations with the help of audio and videos clips.

- A ☐ Productivity software
- B ☐ Entertainment software
- C ☒ **Multimedia software**
- D ☐ Graphic software

Answer C) Multimedia software

Explanation Multimedia software combines audio, video, text, and images to create rich visual presentations.

19 Physical parts of the computer that we can see and touch are known as:

- A ☐ Software
- B ☒ **Hardware**
- C ☐ Both A and B
- D ☐ Computer program

Answer B) Hardware

Explanation Hardware refers to the tangible, physical components of a computer system.

16 In MS Word 2007, which shortcut key is used to insert a comment?

- A ☒ **ALT+CTRL+M**
- B ☐ ALT+CTRL+C
- C ☐ SHIFT+CTRL+C
- D ☐ ALT+CTRL+N

Answer A) ALT+CTRL+M

Explanation Ctrl+Alt+M inserts a comment at the cursor position in Word 2007.

20 LED printer uses ____ to cause toner adhesion to the printer drum:

- A ☐ Laser beam
- B ☒ **An array of LEDs**
- C ☐ Ink
- D ☐ Impact Printing method

Answer B) An array of LEDs

Explanation Unlike laser printers, LED printers use a fixed array of LEDs instead of a moving laser beam to charge the print drum.

17 ____ is a computer software whose user interface and API resembles that of a printer driver.

- A ☒ **Virtual Printer**
- B ☐ Plotter
- C ☐ Dye-Sublimation Printer
- D ☐ Impact Printer

Answer A) Virtual Printer

Explanation A virtual printer (e.g. Print-to-PDF) behaves like a real printer driver but outputs to a file instead of paper.

21 In MS Word 2007, which shortcut key is used to move a selected paragraph up?

- A ☒ **ALT+SHIFT+UP ARROW**
- B ☐ ALT+CTRL+UP ARROW
- C ☐ CTRL+SHIFT+UP ARROW
- D ☐ ALT+TAB+

Answer A) ALT+SHIFT+UP ARROW

Explanation Alt+Shift+Up Arrow moves the currently selected paragraph upward in the document.

18 ____ contains a magnetic strip.

- A ☐ Speakers
- B ☒ **Credit card**
- C ☐ Smart card
- D ☐ All of these

Answer B) Credit card

Explanation A credit card carries a magnetic stripe that stores account data; smart cards instead use an embedded chip.

22 ____ is used for criminal investigations and security system. Some computers use it for login and user authentication.

- A ☐ Barcode reader
- B ☐ Computer code reader
- C ☒ **Finger print reader**
- D ☐ Secret code reader

Answer C) Finger print reader

Explanation Fingerprint readers use biometric data for identification, commonly used in security systems and criminal investigations.

23 Computer is an electric machine which process ____ into meaningful information.

A ☒ Input

B ☐ Output

C ☐ Both A and B

D ☐ Graphics

Answer A) Input

Explanation A computer takes raw input data and processes it into meaningful output/information.

24 “Window Explorer” is a/an

A ☐ Educational software

B ☒ Utility program

C ☐ Entertainment software

D ☐ Reference software

Answer B) Utility program

Explanation Windows Explorer is a system utility built into Windows for browsing and managing files and folders.

25 ____ devices hold data and instructions.

A ☒ Storage

B ☐ Input

C ☐ Output

D ☐ Motherboard

Answer A) Storage

Explanation Storage devices (like hard disks or RAM) are used to hold data and instructions for a computer.

26 Main circuit board of a computer is known as:

A ☐ Modem

B ☐ RAM

C ☐ Processor

D ☒ Motherboard

Answer D) Motherboard

Explanation The motherboard is the main circuit board that connects and allows communication between all major computer components.

27 UNIVAC stands for:

A ☒ Universal Automatic Computer

B ☐ Used Automatic Computer

C ☐ Universal Array Computer

D ☐ Unused Automatic Computer

Answer A) Universal Automatic Computer

Explanation UNIVAC (Universal Automatic Computer) was one of the earliest commercial computers.

28 “Adobe flash” is an example of:

A ☐ Spread sheet

B ☒ Multimedia software

C ☐ Utility software

D ☐ File manager

Answer B) Multimedia software

Explanation Adobe Flash was multimedia software used to create animations, interactive content, and video.

29 Mac is a/an:

A ☐ Utility program

B ☐ Device driver

C ☐ Image viewer

D ☒ Operating system

Answer D) Operating system

Explanation macOS (Mac) is an operating system developed by Apple for its Macintosh computers.

30 In MS Word 2007, which shortcut key is used to switch to Draft view?

A ☐ SHIFT+CTRL+N

B ☐ ALT+SHIFT+D

C ☐ ALT+CTRL+D

D ☒ ALT+CTRL+N

Answer D) ALT+CTRL+N

Explanation Ctrl+Alt+N switches the document view to Draft (Normal) view in Word 2007.

31 Encyclopedia is an example of ____ software.

- A ☐ Entertainment
- B ☒ Reference
- C ☐ Productivity
- D ☐ System

Answer B) Reference

Explanation An encyclopedia provides factual information for lookup, making it reference software.

32 ____ could tell you the price of a bar of biscuit.

- A ☐ Keyboard
- B ☐ Mouse
- C ☐ Optical mark reader
- D ☒ Bar code reader

Answer D) Bar code reader

Explanation A barcode reader scans a product's barcode at checkout to retrieve its price and other information.

33 In MS Word 2007, which shortcut key is used to view A "Print Preview" of a document?

- A ☐ ALT+CTRL+P
- B ☐ ALT+SHIFT+R
- C ☒ ALT+CTRL+I
- D ☐ ALT+SHIFT+P

Answer C) ALT+CTRL+I

Explanation Ctrl+Alt+I opens the Print Preview of the current document in Word 2007.

34 In MS Word 2007, which shortcut key is used to switch to Outline view?

- A ☐ ALT+CTRL+P
- B ☐ ALT+SHIFT+O
- C ☒ ALT+CTRL+O
- D ☐ ALT+SHIFT+P

Answer C) ALT+CTRL+O

Explanation Ctrl+Alt+O switches the document view to Outline view in Word 2007.

35 ____ is a program that is used to view and manage images.

- A ☐ System viewer
- B ☐ File viewer
- C ☐ Multimedia software
- D ☒ Image viewer

Answer D) Image viewer

Explanation An Image Viewer is a program specifically designed to display and manage picture files.

36 When a computer starts, ____ check all the devices and loads their drivers so that devices can work properly.

- A ☐ File manager
- B ☐ Application software
- C ☒ Operating system
- D ☐ Utility program

Answer C) Operating system

Explanation During boot-up, the Operating System performs checks on hardware devices and loads the required drivers.

37 ____ loads the system files in the RAM of the computer and provides a user interface.

- A ☐ MS office
- B ☐ Reference software
- C ☐ Productivity software
- D ☒ Operating system

Answer D) Operating system

Explanation The Operating System loads core system files into RAM at startup and provides the interface through which users interact with the computer.

38 A light pen contains ____.

- A ☐ Refillable ink
- B ☒ Light sensitive elements
- C ☐ Pencil lead
- D ☐ Blue ink

Answer B) Light sensitive elements

Explanation A light pen contains light-sensitive elements that detect the position of light emitted from a CRT screen, allowing input directly on the display.

39 Drivers of a computer hardware are:

- A ☐ Application Software
- B ☐ Utility programs
- C ☒ System software
- D ☐ Productivity software

Answer C) System software

Explanation Device drivers are a type of system software that allow the operating system to communicate with hardware.

40 A device cannot work properly if ___ is not installed.

- A ☐ Application software
- B ☐ Educational software
- C ☒ Device driver
- D ☐ Spread sheet

Answer C) Device driver

Explanation Without the correct device driver installed, the operating system cannot properly communicate with the hardware device.

41 ___ is used to draw pictures, 3D images and animation.

- A ☒ Graphic software
- B ☐ Multimedia software
- C ☐ Word processing software
- D ☐ Spread sheet software

Answer A) Graphic software

Explanation Graphic software is specifically designed for creating and editing pictures, 3D images, and animations.

42 Devices which are used to enter data into a computer are known as:

- A ☒ Input devices
- B ☐ Output devices
- C ☐ Communication devices
- D ☐ All of these

Answer A) Input devices

Explanation Input devices (like keyboard and mouse) are used to enter data and instructions into a computer.

43 A long narrow socket on the motherboard into which different expansion cards can be plugged in is called:

- A ☒ Expansion slot
- B ☐ CD ROM
- C ☐ Power Supply
- D ☐ Processor

Answer A) Expansion slot

Explanation An expansion slot is a socket on the motherboard designed to accept expansion cards such as graphics or sound cards.

44 ___ is a component of a processor that performs mathematical and logical operation.

- A ☐ CU (Control Unit)
- B ☐ AU (Arithmetic Unit)
- C ☐ LU (Logic Unit)

D ☒ Both A and C

Answer D) Both A and C

Explanation Performing both mathematical (Arithmetic Unit) and logical (Logic Unit) operations together describes the ALU (Arithmetic Logic Unit).

Note: Note: option D is printed as "Both A and C" (CU and LU); it is intended to mean "Both B and C" (AU and LU), a labeling error in the source.

45 ___ is a component of a processor that compares two quantities and gives answer in the form of true or false.

- A ☐ AU (Arithmetic Unit)
- B ☒ LU (Logic Unit)
- C ☐ Both A and B
- D ☐ None of these

Answer B) LU (Logic Unit)

Explanation The Logic Unit compares values and produces a true/false (boolean) result.

46 ALU is a component of processor, which consists of:

- A ☐ AU (Arithmetic Unit)
- B ☐ LU (Logic Unit)

C ☒ Both A and B

Answer C) Both A and B

Explanation The Arithmetic Logic Unit (ALU) is made up of both the Arithmetic Unit and the Logic Unit.

47 Component(s) of a computer is/are:

- A ☐ Hardware
- B ☐ Software

C ☒ Both A and B

D ☐ None of these

Answer C) Both A and B

Explanation A complete computer system consists of both hardware (physical parts) and software (programs).

48 ___ are used to display data.

- A ☐ Storage devices
- B ☐ Communication devices
- C ☐ Input devices

D ☒ Output devices

Answer D) Output devices

Explanation Output devices, such as monitors, are used to present/display processed data to the user.

49 ___ is a set of light and dark bars (lines) with different widths pasted on different products, which contain information about the product.

A ☒ Barcode

- B ☐ Secret code
- C ☐ Code number
- D ☐ Finger print

Answer A) Barcode

Explanation A barcode is a pattern of parallel light and dark bars that encodes product information for scanning.

50 VAB stands for:

- A ☐ Voice auto broadcasting
- B ☐ Visual & audio broadcasting

C ☒ Voice answer back

D ☐ None of these

Answer C) Voice answer back

Explanation VAB stands for Voice Answer Back, a feature used in early computing/telephony systems for audio responses.

51 MS PowerPoint is an example of:

A ☒ Multimedia software

- B ☐ Graphics software
- C ☐ Spreadsheet
- D ☐ Entertainment software

Answer A) Multimedia software

Explanation MS PowerPoint combines text, images, audio, and video into slide presentations, making it multimedia software.

52 In Windows Operating System ___ is known as a File Manager.

A ☒ Windows Explorer

- B ☐ MS Word
- C ☐ MS Excel
- D ☐ Device Driver

Answer A) Windows Explorer

Explanation Windows Explorer serves as the built-in file manager in Windows operating systems.

53 ___ helps the user to locate, rename, move, copy and delete files.

A ☒ File Manager

- B ☐ MS Word
- C ☐ Device Driver
- D ☐ MS Excel

Answer A) File Manager

Explanation A File Manager is the utility that lets users organize files — locating, renaming, moving, copying, and deleting them.

54 Robot is a machine which is controlled by a software contained in a chip, is used in the field(s) of:

- A ☐ Manufacturing
- B ☐ Military
- C ☐ Medical
- D ☒ All of these

Answer D) All of these

Explanation Robots are widely used across manufacturing, military, and medical fields.

55 “Add or Remove programs” is a(n):

- A ☐ Productivity software
- B ☐ File manager
- C ☒ Utility program
- D ☐ Device driver

Answer C) Utility program

Explanation “Add or Remove Programs” is a Control Panel utility used to install or uninstall software.

56 Which of the following component of a computer works like human brain?

- A ☐ RAM
- B ☒ Processor
- C ☐ DVD drive
- D ☐ Power supply

Answer B) Processor

Explanation The Processor (CPU) performs calculations and controls operations, much like the human brain controls the body.

57 Windows Media player is a/an:

- A ☒ Utility program
- B ☐ Operating system
- C ☐ Educational software
- D ☐ Game Software

Answer A) Utility program

Explanation Windows Media Player is a built-in accessory/utility program bundled with Windows for playing audio and video files.

58 Which of the following contains startup instructions of the computer and information about its hardware devices?

- A ☐ RAM
- B ☒ ROM
- C ☐ Processor
- D ☐ CD

Answer B) ROM

Explanation ROM (which holds the BIOS) stores the startup instructions and basic hardware configuration information, and retains this data even when the computer is off.

59 3D printing is also known as:

- A ☐ Virtual Printing
- B ☒ Additive Manufacturing (AM)
- C ☐ Dye-sublimation Printing
- D ☐ Impact Printing

Answer B) Additive Manufacturing (AM)

Explanation 3D printing is also called Additive Manufacturing because it builds objects layer by layer.

60 In MS Word 2007, which shortcut key is used for “Go to page, bookmark, footnote, table, comment, graphic, or other location”?

- A ☐ CTRL + H
- B ☒ CTRL + G
- C ☐ ALT + H
- D ☐ ALT + SHIFT + H

Answer B) CTRL + G

Explanation Ctrl+G opens the “Go To” dialog box, letting you jump to a specific page, bookmark, or other location.

61 Main type(s) of software is/are:

- A ☐ System Software
- B ☐ Application Software
- C ☐ Request Software
- D ☒ Both A and B

Answer D) Both A and B

Explanation Software is broadly classified into two main types: System Software and Application Software.

62 Software is also called ____

- A ☒ A computer program
- B ☐ Physical part of computer
- C ☐ Input device
- D ☐ Output device

Answer A) A computer program

Explanation Software refers to a set of instructions, i.e. a computer program, that tells hardware what to do.

66 Barcode Reader is a/an

- A ☒ Input device
- B ☐ Output device
- C ☐ Storage device
- D ☐ Display device

Answer A) Input device

Explanation A barcode reader scans and inputs product data into a computer, making it an input device.

63 PNG (Portable Network Graphics) is an example of:

- A ☐ Vector graphics
- B ☒ Raster graphics or bitmaps
- C ☐ Color graphics
- D ☐ Negative films

Answer B) Raster graphics or bitmaps

Explanation PNG is a raster (bitmap) image format that stores images as a grid of pixels.

67 ____ is used to transmit digital data over telephone lines.

- A ☐ Network card
- B ☐ Sound card
- C ☐ Graphic card

D ☒ Modem

Answer D) Modem

Explanation A modem (modulator-demodulator) converts digital data for transmission over telephone lines and back again.

64 Types of computer memory are:

- A ☐ Two
- B ☐ Four
- C ☒ Three
- D ☐ Six

Answer C) Three

Explanation Computer memory is generally classified into three types: Primary (Main), Secondary, and Cache memory.

68 Which of the following is temporary storage for data before and after it is processed?

- A ☒ RAM
- B ☐ ROM
- C ☐ CD
- D ☐ Floppy

Answer A) RAM

Explanation RAM is volatile, temporary storage that holds data and instructions currently being processed.

65 Daisy Wheel Printing is a example of

- A ☐ Thermal Printing
- B ☒ Impact Printing
- C ☐ Laser Printing
- D ☐ Liquid Inkjet Printing

Answer B) Impact Printing

Explanation A daisy wheel printer strikes an inked ribbon against paper, classifying it as an impact printer.

69 In MS Word 2007, which shortcut key is used to move a selected paragraph down?

- A ☐ ALT + CTRL + DOWN ARROW
- B ☒ ALT + SHIFT + DOWN ARROW
- C ☐ ALT + TAB + DOWN ARROW
- D ☐ CTRL + SHIFT + DOWN ARROW

Answer B) ALT + SHIFT + DOWN ARROW

Explanation Alt+Shift+Down Arrow moves the currently selected paragraph downward in the document.

70 ___ are programs that control and direct the operations of a computer hardware.

- A ☐ Application Software
- B ☐ MS Office Suite
- C ☒ System Software
- D ☐ Game Software

Answer C) System Software

Explanation System software (like the OS and drivers) directly controls and manages computer hardware operations.

71 Who invented Computer Mouse?

- A ☒ Douglas Carl Engelbert
- B ☐ Bill Gates
- C ☐ John McAfee
- D ☐ Evan Williams

Answer A) Douglas Carl Engelbert

Explanation Douglas Engelbart invented the computer mouse in 1964.

Note: Spelled "Engelbert" in the source; correct spelling is Engelbart.

72 ___ is used to detect physical and logical problems of a disk.

- A ☐ Device driver
- B ☐ File manager
- C ☐ Reference software
- D ☒ Disk scanner

Answer D) Disk scanner

Explanation A disk scanner checks a disk for physical and logical (file system) errors.

73 ___ is used as a disk scanner in Microsoft Windows.

- A ☒ Disk cleanup
- B ☐ Disk defragmenter
- C ☐ Disk cleanout
- D ☐ Disk cleaning

Answer A) Disk cleanup

Explanation Among the given options, Disk Cleanup is the Windows built-in utility commonly associated with disk maintenance and scanning for unnecessary files.

74 ___ is a pointing device.

- A ☐ CD-ROM drive
- B ☒ Touch screen used for computer input
- C ☐ RAM
- D ☐ CPU

Answer B) Touch screen used for computer input

Explanation A touch screen used for input allows a user to point directly at items on the screen, making it a pointing device.

75 VGA stands for:

- A ☒ Video Graphics Array
- B ☐ Visual Graphics Array
- C ☐ Volatile Graphics Array
- D ☐ Visual Graphics Array

Answer A) Video Graphics Array

Explanation VGA stands for Video Graphics Array, a display standard.

Note: Options A and D are printed identically in the source due to a typo; the correct expansion is "Video Graphics Array."

76 CDR (Corel Draw) is an example of:

- A ☒ Vector graphics
- B ☐ Raster graphics or bitmaps
- C ☐ Color graphics
- D ☐ Negative films

Answer A) Vector graphics

Explanation CorelDRAW creates vector graphics, which use mathematical paths rather than pixel grids.

77 MS Excel, Lotus 1-2-3 and Corel's Quattro Pro are examples of:

- A ☐ Utility program
- B ☐ Reference program
- C ☐ File manager
- D ☒ Productivity Software

Answer D) Productivity Software

Explanation These spreadsheet applications are classified as productivity software.

78 CD-ROM stands for:

- A ☐ Compactable Data Read Only Memory
- B ☐ Compactable Disk Real Memory
- C ☐ Compactable Data Real Memory
- D ☒ Compactable Disk Read Only Memory

Answer D) Compactable Disk Read Only Memory

Explanation CD-ROM stands for Compact Disc Read-Only Memory.

82 Deccan Plateau is situated in:

- A ☐ France
- B ☒ India
- C ☐ Australia
- D ☐ South Africa

Answer B) India

Explanation The Deccan Plateau is a large plateau located in southern and central India.

79 Daisy wheel printing was invented in

- A ☒ 1969
- B ☐ 1975
- C ☐ 1965
- D ☐ 1980

Answer A) 1969

Explanation The daisy wheel printing mechanism was invented in 1969.

83 The first Pakistani cricket player to score 1000 runs in T20 is:

- A ☐ Shahid Afridi
- B ☒ Muhammad Hafeez
- C ☐ Umer Akmal
- D ☐ Imran Nazir

Answer B) Muhammad Hafeez

Explanation Muhammad Hafeez was the first Pakistani cricketer to reach 1000 runs in T20 Internationals.

80 "Disk Cleanup" is a/an:

- A ☒ Utility program
- B ☐ Device manager
- C ☐ Productivity program
- D ☐ File manager

Answer A) Utility program

Explanation Disk Cleanup is a Windows utility program that removes unnecessary files to free up disk space.

81 Which country has the largest Muslim population in the world?

- A ☐ Iran
- B ☐ India
- C ☒ Indonesia
- D ☐ Saudi Arabia

Answer C) Indonesia

Explanation Indonesia has the largest Muslim population of any country in the world.

84 Find the odd one out: 41, 43, 47, 53, 65, 71, 73, 79

- A ☐ 53
- B ☐ 65
- C ☐ 71
- D ☐ 41

⚠ Question Error in Source Paper

Explanation Checking the gaps between consecutive numbers (+2, +4, +6, +12, +6, +2, +6) shows the series as printed is inconsistent. As the source paper itself notes, the intended series is 41, 43, 47, 53, 61, 73, 81 — in that corrected series 81 is the odd one out because it is a perfect square while every other number is prime. Since 81 does not appear among the four printed choices, none of options A–D is actually correct.

Note: This question contains a printing error in the original paper (acknowledged in the source's own worked solution).

85 Which of the following countries does not have Veto power in the UN?

- A ☐ USA
B ☒ Canada
C ☐ UK
D ☐ France

Answer B) Canada

Explanation The five permanent UN Security Council members with veto power are the USA, UK, France, Russia, and China. Canada is not a permanent member and has no veto power.

86 Fill in the blank. "They do nothing ____ complain all the time."

- A ☒ except
B ☐ at
C ☐ of
D ☐ on

Answer A) except

Explanation "Except" means "other than," fitting the sentence: they do nothing other than complain.

87 Fill in the blank. "I paid the fees ____ the end of the course."

- A ☐ in
B ☒ at
C ☐ about
D ☐ of

Answer B) at

Explanation "At the end of" is the correct prepositional phrase indicating a specific point in time.

88 Which city became the temporary capital of Pakistan in 1960?

- A ☐ Lahore
B ☐ Karachi
C ☒ Rawalpindi
D ☐ Quetta

Answer C) Rawalpindi

Explanation Rawalpindi served as the temporary capital of Pakistan while Islamabad was being constructed.

89 The synonym of "Ambiguous" is:

- A ☐ Determined
B ☐ Obvious
C ☐ Explicit
D ☒ Unclear

Answer D) Unclear

Explanation "Ambiguous" means open to more than one interpretation, i.e. unclear.

90 They always ____ back home late.

- A ☒ come
B ☐ will come
C ☐ came
D ☐ had come

Answer A) come

Explanation With "always" describing a habitual action, the simple present tense "come" is correct.

91 She ____ English now.

- A ☐ speak
B ☐ speaks
C ☒ is speaking
D ☐ spoken

Answer C) is speaking

Explanation "Now" signals an action happening at this moment, requiring the present continuous tense "is speaking."

92 It ____ to rain an hour ago.

- A ☒ began
B ☐ began
C ☐ begun
D ☐ will began

Answer A) began

Explanation "An hour ago" requires the simple past tense "began."

Note: Options A and B are printed identically ("began") in the source due to a typing error.

93 You ____ since morning.

- A ☐ rest
- B ☐ rested
- C ☐ will rest

D ☒ have been resting

Answer D) have been resting

Explanation “Since morning” indicates an action that started in the past and continues now, requiring the present perfect continuous tense “have been resting.”

94 I ____ this exercise in an hour yesterday.

A ☒ finished

- B ☐ finish
- C ☐ will finish
- D ☐ will have finished

Answer A) finished

Explanation “Yesterday” places the action in the simple past tense: “finished.”

95 She has ____ the letter.

- A ☐ post
- B ☐ posts
- C ☒ posted
- D ☐ will post

Answer C) posted

Explanation “Has ____” requires the past participle form to complete the present perfect tense: “posted.”
